When selecting and configuring your motorhome, please keep in mind that the installation of optional equipment and accessories increases the actual weight of the motorhome and reduces the remaining load capacity (or payload). It is imperative that the legally prescribed minimum payload be observed when configuring the motorhome and must not be fallen short of. Empty weights can be taken from the current catalog. The prices are valid until the publication of a new price list. The above prices correspond to the prices at the time of printing. Changes in price, design and equipment and errors excepted. Prices are recommended retail prices including 19% VAT.

Status August 2023. V1/24 [Ahorn Camp GmbH | ahorn-camp.de](https://www.ahorn-camp.de)
