Total price		

*Please note that when selecting and configuring your motorhome, the installation of optional equipment and accessories increases the actual weight of the vehicle and reduces the remaining payload. The legally required minimum payload must be observed during configuration and must not be undercut. General information on vehicle weights can be found in the catalogue. The above-mentioned options can only be ordered prior to the start of production. Prices are valid until a new price list is issued. The prices shown reflect the status at the time of printing. Prices, specifications and equipment are subject to change without notice and to possible errors. All prices are non-binding recommended retail prices including 19 % VAT. An additional EUR 2,450 will be charged for transport to the dealership, TÜV inspection, COC documents, gas inspection, vehicle handover and briefing. This price list supersedes all previous versions. Status: January 2026, V1/26
