Motorhomes & Campervans

Model year 2027

For 35 years, Ahorn Camp has stood for motorhomes featuring state-of-the-art technology and excellent value for money. Founded in 1991, the company is now run by the second generation of the family. With three branches of its own and a nationwide partner network, Ahorn Camp offers advice, sales, rental and service from a single source. The motorhomes of the new era have already received multiple awards for outstanding design and innovative solutions.

AI generated

Ahorn Camp. New era. Built different.

Ahorn Camp enters the 2027 season with the new Eclipse Edition and three new layouts. The Eclipse Edition is the central highlight, making a distinctive statement with its Pearl-Black cab, black alloy wheels, matt-black design elements and a well-thought-out LED lighting concept. The portfolio is complemented by three new layouts: the T 590 and A 595 extend the compact range under six metres, while the new TL 740 celebrates its premiere in January 2027.

The unique partnership behind Ahorn Camp combines Renault's efficiency and safety with the Erwin Hymer Group's manufacturing standards and Ahorn Camp's customer-oriented innovative strength — embedded in a Europe-wide dealer and service network.

Discover vehicles that set new standards: stylish equipment, intelligent connectivity and advanced assistance systems for maximum safety. Quality, technology and design at a fair price — without compromise.

German Engineering,
Italian Design, French Engine.

01

Smart design meets premium quality

Our motorhomes combine stylish design with well-thought-out space solutions and high-quality workmanship at a fair price.

02

Comfort & driving pleasure included

Excellent driving dynamics, an ergonomic cockpit and modern equipment make every journey an experience. Comfort you can feel with every kilometre.

03

Pioneering tech- nology

Innovative driver assistance systems, connected features and intelligent controls ensure maximum safety, efficiency and control. Ready for tomorrow.

ECLIPSE – Impossible to ignore.

Strong presence. Distinctive design.

The Pearl-Black cab, widened rear axle and black Renault alloy wheels give the Eclipse Edition a striking presence. Black leather-look upholstery, an LED lighting concept, wood elements and the smart control system create a high-quality ambience down to the last detail.

A true driving experience.

The Eclipse Edition is based on the latest-generation Renault Master — 'Van of the Year 2025'. Modern assistance systems, smartphone integration and the optional 9-speed automatic transmission ensure a true driving experience.

Technology and safety at the highest level.

All 2027 models comply with the EU GSR II safety requirements that have applied since July 2026 — including extended assistance systems, the cybersecurity standard (UNECE R155) and software update management (R156). New: the Safety Pack is now included as standard on all models.

Quality you can rely on.

Manufactured at the Erwin Hymer Group's plant in San Casciano and tested at the EHG Test Center — for high build quality and a convincing price-performance ratio.

Renault Master Chassis

Awarded 'Van of the Year 2025', the new Renault Master sets standards in efficiency, comfort and technology. The new Blue dCi engine generation (Euro 6e), the improved air-shaping design and the optional torque-converter automatic transmission ensure smooth running, lower fuel consumption and genuine driving pleasure. With numerous assistance systems, modern infotainment and an ergonomic cockpit, the new Master is already GSR II compliant and perfect for discerning motorhomes — comfortable, safe and forward-looking.

9-speed torque converter automatic EAG9

Enables particularly smooth gear changes — for a relaxed and comfortable ride (optional).

Stable chassis, flexibly configurable

Robust base for high stability. Depending on configuration, can be approved for 3.5 to 4.0 t.

Agility & stability

Made possible by a new front axle. A 1.5 m smaller turning circle makes manoeuvring easier.

Speed management

Lower revs at motorway speeds reduce fuel consumption and ensure a quieter driving experience.

2.0-litre engine with timing chain

Ensures better power delivery and increased efficiency.

New electric power steering

For precise steering response and increased safety.

Driver-focused cockpit

Modern S-shaped cockpit design for optimum ergonomics and intuitive operation — entirely geared towards the driver.

Multimedia system

The OpenR link system with 10-inch touchscreen offers intuitive operation and wireless smartphone integration. Over-the-air updates ensure that your infotainment system is always up to date and connected.

Available engine variants

Engine	dCi 130	dCi 150	dCi 170
Power / max. torque	130 hp / 96 kW, 350 Nm	150 hp / 110 kW, 360 Nm	170 hp / 125 kW, 380 Nm
Transmission	6-speed-manual	6-speed-manual 9-speed torque converter auto-matic	6-speed-manual 9-speed torque converter auto-matic

Efficient. Secure. Excellent.

Design and Interiors

The living space of the new Ahorn Camp generation impresses with its timeless design, high-quality brand components and an atmospheric LED ambient lighting concept. Well-thought-out furniture construction, improved insulation and optimised air circulation create a pleasant indoor climate. The kitchen combines elegant design with functionality: matt-black fittings, a robust worktop and brand-name appliances are complemented by spacious cupboards and soft-close drawers.

T 640

T 690

High-quality construction. Maximum comfort.

The sleeping area features ergonomic mattresses, comfortable slatted frames and USB and USB-C charging sockets right by the bed. Matt-black accents lend stylish elegance, while modern wooden slats create a cosy atmosphere.

Both the space-saving Vario bathroom and the model with separate shower and toilet offer generous storage solutions, ample mirror space and practical hanging rails.

Semi-Integrated

Compact, versatile and comfortable
The semi-integrated models offer up to five seats and sleeping places. Optionally available with an electric lift bed for even more flexibility. Choose from six well-designed layouts, depending on the model, with an L-shaped seating area and 360-degree rotating table or with a spacious face-to-face dinette.

Electric lift bed by Lippert (optional)
Infinitely height-adjustable, quiet in operation and compactly integrated — for maximum sleeping comfort. The width varies depending on the model: 100 cm, 140 cm or 150 cm.

Fabric options

Alcove

More space for more freedom on the road
With 211 cm of length and 147 cm of width, the alcove bed offers exceptionally generous space and a high level of sleeping comfort. Depending on the model, the sleeping arrangement at the rear is complemented by a double, transverse or single bed. With up to six seats and sleeping places, the alcove models are especially tailored to the needs of families.

And the concept convinces: the Ahorn Camp alcove range has already received multiple awards and has been one of the brand's particular strengths for years.

Simply fold up. Enjoy more space.
Thanks to hydraulic assistance, the alcove bed folds up especially easily and smoothly. This creates extra headroom and a spacious feel in the front area during the day. The large side window and roof hatch provide plenty of daylight and fresh air, while the integrated fall protection offers additional safety.

Panoramic roof window

Creates a bright, spacious feel — with black-out and opening function.

Soft-close-function

High-quality hinges for smooth, silent closing.

Smart control system

Optionally available: the CBE smart control system. All key vehicle functions at a glance.

Energy-efficient refrigerator

Thetford brand-name appliance with freezer compartment — depending on model, 89 l / 136 l absorber with automatic energy selection.

Practical storage space

Well-thought-out solutions with clever access — e.g. via integrated steps or practical clothes rails.

Lighting concept

LED ambient lighting throughout the structure — atmospheric and energy-saving.

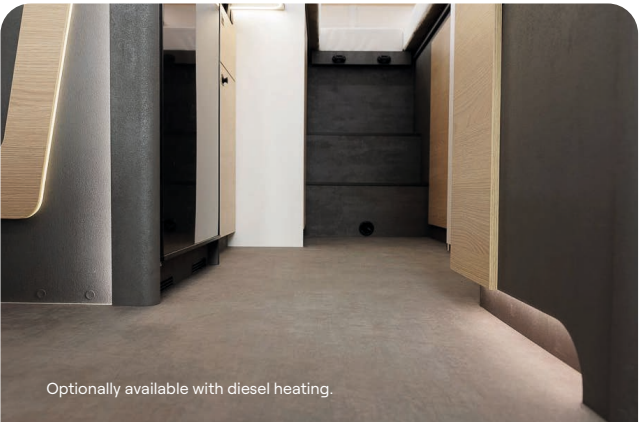

Extra-wide entry door

XL door by Hartal with integrated window and hydraulic support.

High-quality seat cushions

Cowan upholstery with durable foam. Face-to-face dinette with folding travel seats.

Smart heating system

The integrated Truma Combi C4 with CP panel ensures even heat distribution throughout the vehicle.

Full GRP body

Durable and resistant thanks to GRP roof, outer skin and underbody.

Waterproof XPS insulation

XPS in the floor and roof provides moisture protection, high insulation and dimensional stability.

Functional garage

Heated, illuminated and with non-slip flooring — secure storage space for your equipment.

Design and Interiors

High quality. Modern. Intelligent.

The new generation of campervans combines modern design with advanced technology. Timeless, warm wood harmonises perfectly with matt-black fittings, creating a stylish atmosphere. The continuous LED ambient lighting sets targeted accents and underlines the modern sense of space.

Comfortable living & sleeping

The dinette seats up to four people and is available with Isofix as an option. Swivel seats and a fold-out table create a flexible living area that can quickly be converted into an additional sleeping space if needed. This means both campervan models offer comfortable sleeping places for up to three people.

Kitchen

Spacious drawers and wall cabinets offer ample storage space for cookware and supplies. The open sliding door creates an outdoor kitchen feel. Matt-black fittings and the integrated hob with elegant glass cover add modern design accents.

Integrated sink and 2-burner stove with piezo ignition and covers.

Function meets design.

Bathroom

The fully equipped Vario bathroom comes with a toilet, shower and washbasin. A roof hatch and a side window ensure optimal ventilation. A wall cabinet, a washbasin cabinet and a generous mirror round off the features.

Flexible table

Practical table with rotating additional plate — can be completely removed if required.

Soft-close function

High-quality hinges for smooth, silent closing.

Design

Modern wood panelling combined with indirect LED lighting creates a stylish, cosy atmosphere.

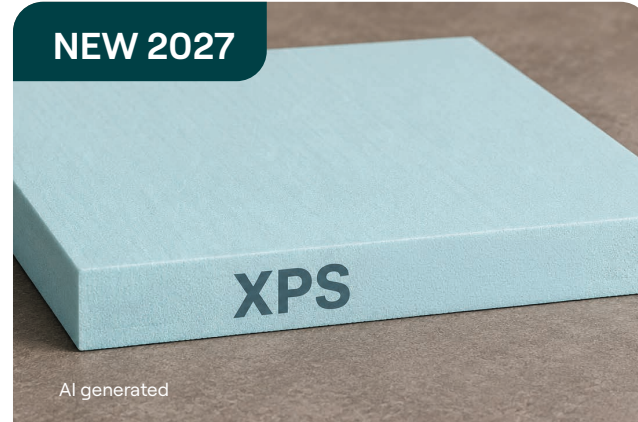

Insect protection

Practical fly screen door for fresh air without insects inside.

Roof hatches

Two Dometic roof hatches in the living area and one in the bathroom provide daylight and fresh air.

Waterproof XPS insulation

XPS in the floor and roof provides moisture protection, high insulation and dimensional stability.

Frame windows

All-round frame windows by Dometic with an elegant appearance and effective insulation.

Smart control system

Optionally available: the CBE smart control system. All key vehicle functions at a glance.

Easy-care flooring

With integrated LED lighting and multiple warm air vents — for a pleasant climate.

Sleeping comfort

Comfortable ergonomic mattresses and high-quality slatted frames.

Smart storage space

Well-thought-out solutions, such as a clothes rail under the single beds.

Heating

Truma Combi C4 gas with smart control. Optionally available with Truma diesel heating.

Onboard Multimedia System

Smart control system

The digital control system included in the Comfort Pack centrally manages all key technical functions of your motorhome — clearly structured and intuitively operated. Via the integrated touchscreen display, you can conveniently control power, lighting, the water pump and other onboard functions from a single interface. With the upgrade to the Connectivity Pack, you can even control it remotely via your phone while travelling or at home.

Smart TV entertainment in your motorhome optional

A 22-inch smart TV with Full HD, triple tuner and WiFi for unlimited entertainment in your motorhome. Thanks to the clever mounting bracket, you can enjoy watching television from the dinette or the bedroom.

Versatile charging options

Numerous, conveniently placed 230 V, USB and USB-C sockets for maximum comfort on the go — included in the optional Comfort Pack.

Our Quality Promise

Comprehensive dealer and service network

Our Germany-wide partner network combines support for the base vehicle and the body — for seamless, comprehensive service from a single source.

Manufacturing at the highest level

Production takes place at the Erwin Hymer Group's modern factory in San Casciano — with precision and the highest quality standards.

7-year leak-proof guarantee

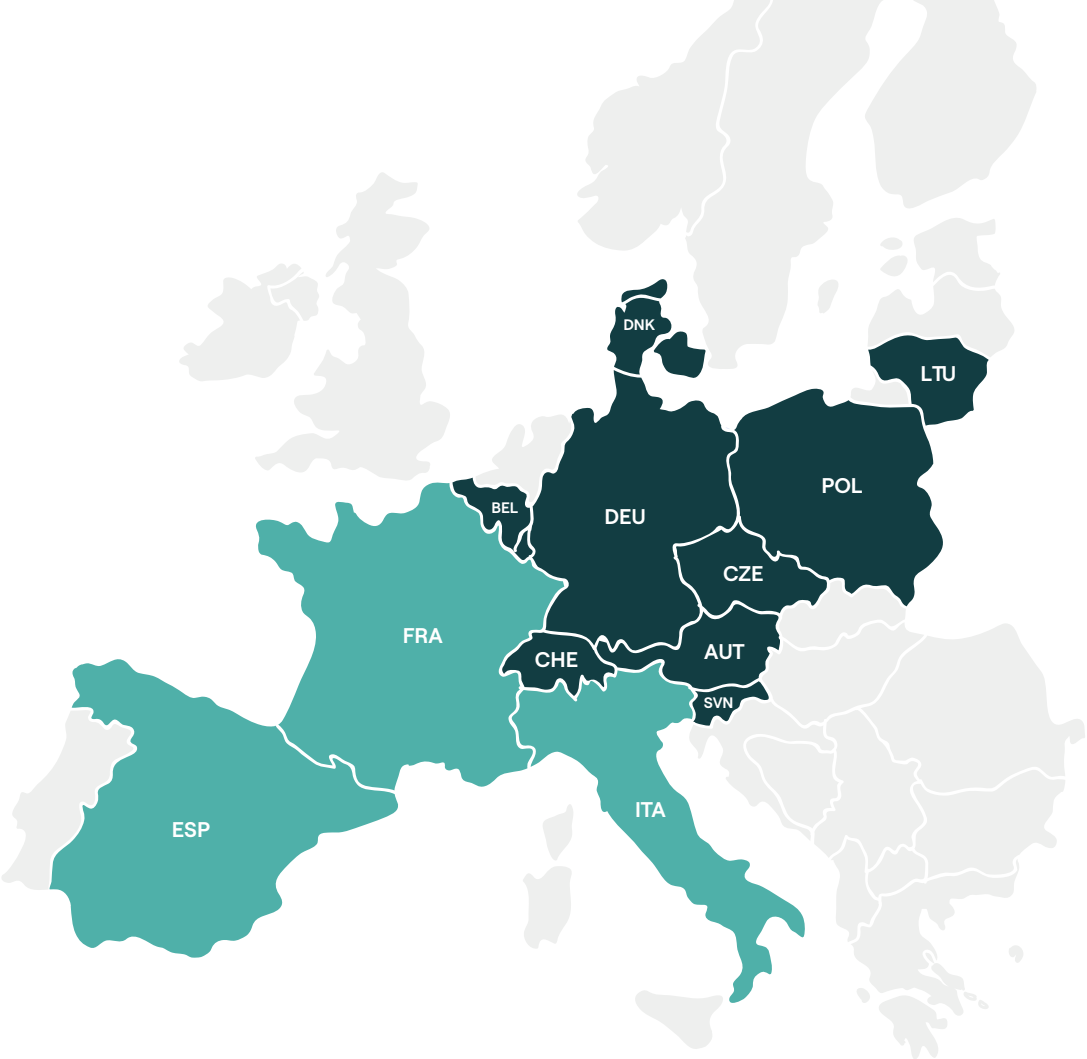

Only one annual leak test is required — a sign of confidence in the high-quality GRP construction.

Durability & value retention

The use of durable materials and high-quality brand components reduces repair costs and conserves resources.

Additional security

In cooperation with our partner Consors Finanz, we offer attractive financing as well as repair cost insurance with an extended term of up to 48 months.
